

NCAA HOLIDAY BOWL PICK'EM

NCAA Holiday Bowl Football Pick-em will follow the 28-Division IA Football Bowl Games. The first Bowl Game will be December 20th, and the last Bowl Game will be January 4th. Each participant will try to pick the winner of each bowl game, and will put a point value on that game. The point value for each game will be between 1 to 28 and each game will have a different value, if the participant guesses a bowl game right they will receive the points that they put on that game. For example, if I guess Virginia Tech will win their bowl game and put 24 points down and they win I will receive 24 points towards my overall score. **YOU MAY ONLY USE EACH NUMBER 1-28 ONE TIME SO CHOOSE YOUR GUARANTEED PICKS WISELY.** The participant who gets the most points (Maximum: 406) after all games have been played will be the winner, the tiebreaker will be the total points of the National Championship Game (Rose Bowl presented by Citi).
